UNITED PROTESTANT SERVICES START MONDAY, FEB. 18

The community inspirational services scheduled for February 18th through February 22 in the First Baptist Church, are especially designed to increase interest in religion.

For those who regularly attend the church of their choice this will be a season of inspiration and comfort, and it is hoped that for non-church goers it will be the necessary stimulus for their return to regular worship.

Rev. Lane G. Adams will lead the study hour at 10 a. m. Tuesday through Friday using as his subject, "How I can know if I am a Christian," and inspirational services each evening Monday through Friday at 7:30.

Rev. Adams was born in New Orleans, reared in Bay St. Louis, Mississippi, attended the University of Mississippi, was commissioned in the United States Navy at Pensacola and served as Aircraft Carrier Fighter Pilot in the Pacific during World War II. TOWN AND COUNTRY
GARDEN CLUB JOINS
ANTI-LITTER
CAMPAIGN

The Town and Country Garden Club, in cooperation with the Bay-Waveland Garden Club, is conducting an intensive anti-litter campaign. Waveland along with other coastal cities, is one of the main features of interest to tourists.

Alvin Lader, the proud mother and father of the King of Carnival this year.

Congratulations to Mr. and Mrs. R. G. Hubbard who celebrated their 32nd wedding anniversary on February 11th.

Anyone in Waveland who wishes to contribute to the March of Dimes, please contact Mrs. Thelma Landry, Mrs. Nona Zimmerman or Mrs. Fred Bourgeois.

Mrs. Mary Moran, who recently underwent surgery at Hotel Dieu has been released and is recovering at the home of her son and daughter-in-law, Mr. and Mrs. Erwin Moran, in New Orleans.

lets and for that reason the Club is asking the cooperation of all citizens to make our town one of the cleanest, neatest and most beautiful on the coast. No matter how many flowers and shrubs are in bloom, one pile of trash or litter can spoil the whole impression of beauty. Our civic organizations are very much interested but they can do nothing without the help of the citizens.

The Mayor of Waveland, together with the town council, is very much interested in having a clean, healthful town and has furnished trashcans, painted yellow, to be placed in locations where litter is extremely heavy. When you have candy wrappers, empty sacks, bottles, cans or other litter, please carry them until you pass one of the cans and deposit the litter there.

The Club is offering a prize to the girl or boy who can offer the best slogan for this campaign. The contest ends Tuesday, February 12th, but the campaign lasts all year. Mrs. Earle R. Gates, Mrs. Edward LeVasseur, and Mrs. William Ford are the committee appointed by the Club to promote this endeavor.

The Club is asking the coopera-

tion of all persons who are permanent residents. It is just as proud of Waveland as the citizens who live there. It is to these few that we direct this plea. Leave Waveland a better place than you found it. Put it where the garbage can pick it up. Don't let it end at the road or highway. Don't litter.

NEW LIBRARIES OPENED IN STATE

Many thousands of Mississippians will have access to books for the first time as a result of fifteen new or completely renovated libraries which opened in Mississippi during 1962. During the past year new libraries have been opened for the first time in Ridge, Petal, Oakland, Mize, Hamilton, and Southaven. Two branch libraries opened in Jackson. Negroes now have their own libraries in Arkville and Grenada.

Three large cities in the state, Biloxi, Hattiesburg, and Pascagoula, embarked in 1962 on an armed library program.

The new library at Hamilton, Monroe County, was built on a barn-raising theory. The citizens raised donations and did most of the building of the structure, themselves. The new Mize library is the result of combined efforts on the part of both the city board and the Board of Supervisors. The new Oakland library, the third library in Yalaha County, and others in Water and Coffeeville, too, are products of combined civic efforts.

Jackson's new Southside Branch Northside Branch are meeting tremendous demands for reading in the city's fast growing suburbs.

This outstanding record of new and improved libraries which have opened in our state within the last year is proof of the eagerness Mississippians feel toward reading for information, inspiration, and enjoyment.

Milk is the leading beverage at all times for our nation's teenagers, surveys show.

SAFETY GEAR

Inspector Marion Faulk of District Eight of the Mississippi Highway Patrol, left with the Rev. Charles R. Johnson, headmaster of the Christ Episcopal Day School at Bay St. Louis, checks the seat belts installed in the new 66-passenger bus purchased by the school.

SEAT BELTS EQUIP DAY SCHOOL BUS

Christ Episcopal Day School, a private school in Bay St. Louis which operates from nursery school through the eighth grade, placed in operation Monday what is probably the only school bus in Mississippi equipped with seat belts.

"It's the only one I know of in the state," Inspector Marion Faulk of the highway patrol's District Eight, said while examining the safety equipment on the new bus. The Rev. Charles R. Johnson, rector of Christ Episcopal Church and headmaster of the Christ Episcopal Day School, said the bus is a 66-passenger vehicle that cost \$8,280.

William L. Braun, a member of the Board of trustees of Christ Episcopal Day School said the addition of the seat belts only increased the cost of the vehicle by about \$250, which the school figures was a small cost for the added safety factors.

With addition of the seat belts, Faulk said the bus driver can give his full attention to driving without worrying about the danger of sudden stops always present when children roam about a bus.

Dr. Richard A. Hawkins, a Gulf-

port dentist and a member of the school's board of trustees, was the originator of the idea of equipping the new bus with seat belts, the Rev. Mr. Johnson observed.

Although located in Bay St. Louis, many of the students attending Christ Episcopal Day School come from Harrison County area. The bus goes as far as Courthouse road, through Bayou View in Gulfport, down the Pass Road to 28th Avenue and then down U. S. Highway 90 on its daily route.

Inspector Faulk, who examined the bus in front of the highway patrol sub-station at Gulfport, praised the safety features of the equipment. The bus is also equipped with a warning system that rings if the rear door of the bus opens.

Interment was in Baptist Cemetery, Pass Christian.

Mrs. Collins, a native of Logtown, Miss., and a resident of Pass Christian, is survived by her husband, Lawrence Collins Sr.; four sons, James Collins, Joe Collins, Henry Collins, and Lawrence Collins Jr.; two daughters, Gloria Collins and Ruth E. Collins and two brothers, all of Pass Christian.

Kantcha Ketchum

Fresh water fishing has improved a little over the past week. Some green trout have been caught on under water baits and perch have been caught on worms in deeper water. The tides have been exceptionally low. The hard rains of the early part of the week may effect the water but the chances are that they may not as there hasn't been any rain for a long time.

According to Nolan Ladner, local game warden, things have been rather quiet regarding fishing and hunting. Nolan really gets around and knows where and when fish are being caught.

GOOD NEWS!

It is good news to know that the quail and rabbit season has been extended to the 18th of February. Gives hunters a little more time for hunting. Quail seem to be plentiful but it requires knowledge to know where they are and hard hunting to get them. Rabbits also seem to be plentiful according to those who enjoy hunting them. Nothing is better eating than rabbits when fried or stewed.

Another real steak supper was enjoyed by members of the Pass Christian Golf Club Saturday night. Sunday saw a goodly number of golfers out. A number of members of the Club participated in the golf tournament being held at Gulf Hills last week.

Haven't heard who the winners were.

Laymen of Christ Church enjoyed the Laymen's supper held last Thursday at the Parish House. These suppers are usually held each month.

Mrs. Watson Prindiville of Pass Christian says she enjoys most any kind of fishing. Should have some good fishing with warmer weather when the fish start really striking.

Norman Tartavouille, who is in the electric business and Warren Hale caught some fish last week. Norman goes whenever he can.

FIRST: Beginning at the intersection of S. line of Railroad Ave., and W. line of Oak Street, which may be further described as the NE corner of Block 4, Clermont Harbor, Miss., thence running S. 20° E 55 feet along W. line of Oak St., to a corner fence post; thence running S. 70° W. along a fence line 107 feet, more or less, to the W. line of Lot 4; thence running N. 20° W. 38 feet along the W. line of Lot 4 to an iron stake set on S. line of Railroad Avenue; thence running N. 55° 32' E 103.5 feet, more or less, along the S. line of said Avenue, to the place of beginning. Being a part of Lots 1, 2, 3, and 4, Block 4, Clermont Harbor, Hancock County, Miss., as per the official plat of said Clermont Harbor made by John S. Pearce, Surveyor on May 31st, 1911.

Being the same land acquired by Albert Clifford Paulk and wife, Mrs. Jeannette Pickle Paulk by deed dated March 3, 1958, recorded in Book L-5, page 149.

LUCIEN M. GEX TRUSTEE

Al Mercer who claims his greatest sport is fishing said he caught a 3 pound green trout this week. He was fishing from the bank and caught his bait on a log. Thanks to August Rauxet the bait was retrieved.

Speaking of August Rauxet, besides being a good fisherman he became a good granddad this week. His catch was a 9 1/2 pound grandson.

For those who love birds, it has been quite a pleasure to watch the thousands of robins that visited our section the past week. The robins looked as big as jacks and in our childhood ate as well.

Thanks to our laws it's against the law to shoot these song birds. They are good to look at and are migratory birds each year.

Nutra, an ugly creature, and destroyer are proving a means of revenue. They have invaded our section during the past few years and are becoming more plentiful all the time. They have been killed just for the fun of shooting them but now there is a price paid for their pelts which makes it more fun hunting them. Nicky Rauxet and David Carter have plans for the future. Look out Nutra.

When fishing for bass with dead bait and worms, etc., always try to locate a sunken log, tree top or deep hole. They usually hang around such places.

Bob Groover, Linotype Operator of the Eagle, says he hopes to do some fishing when the weather warms up. Bob is from Florida and should know how to get 'em.

According to reports there were 135,292 barrels of oysters produced in Mississippi from Jan. 7 to Jan. 23. The figures came from George Williams chief inspector of the Miss., Marine Conservation Commission. The oyster season closed on Jan. 30, and will reopen Feb. 25 and run for two additional weeks.

Ducks are still being seen up the rivers and bayous. They are stopping over before making their way back north.

When going fishing these days better not forget that landing net. Fresh water fish being caught now are running good size. Saves making that old familiar statement, "The big one got away!"

Tony Enterante, Joe Glover and

Little Elliott reported a big red fish, several large red fish. Leesville is a famous fishing place and is visited by these fishermen often.

For those seeking salt water fishing places reports have been heard that big rede and speckles are being caught at Grand Isle and Empire, La.

For those who like to catch the often called "Old Ugly" the silver king (Tarpon) is monarch of all game fishes, in our humble opinion. No fish will hit as explosively, leap as mightily, fight as doggedly, or succumb as nobly as a tarpon. When fishing for tarpon better have the heaviest of tackle, for when the big boy heads for Africa, set the hook hard, keep a mighty tight line, and enjoy every lasting minute of it!

Eddie LaCoste is an ardent fisherman and catches his share of

INDUSTRIES LOCATE IN S. E. MISSISSIPPI

A total of 14 new industries located in the 25-county area of Southeast Mississippi during 1962. W. Lee Wood, manager of Mississippi Power Company's New Industries department announced this week. This compares with 16 new industries for a comparable

period last year. The power company officials said that 16 industries had expanded their facilities, involving a capital investment of \$9,500,000. In comparison, 21 firms increased their plant facilities at a cost of \$4,242,000 during 1961.

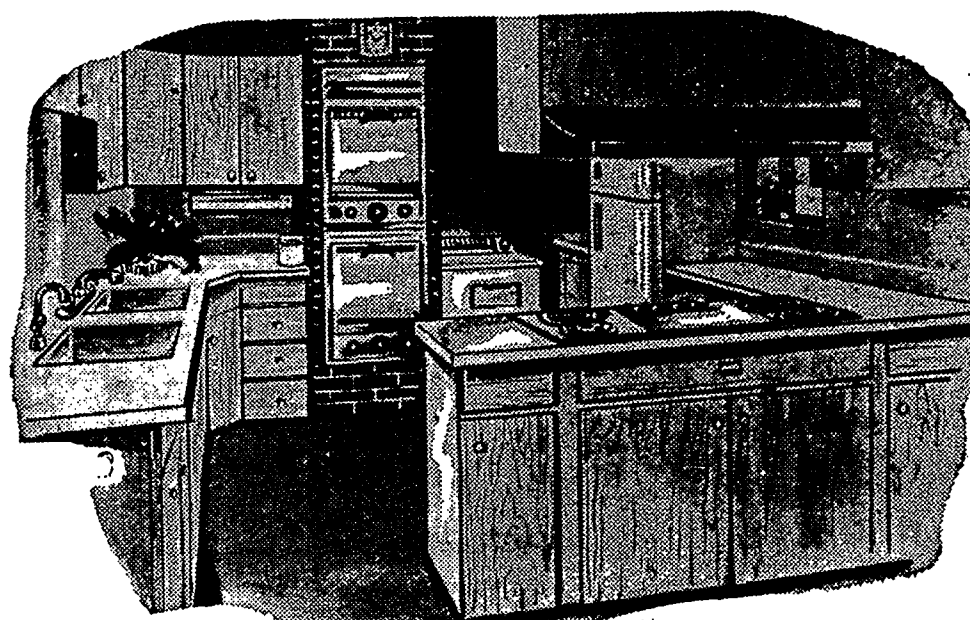

In noting the year-end industrial picture, Mr. Wood said, "From all indications, the rate of growth for the Southeast Mississippi area will continue at about the same rate or somewhat above last year's growth rate."

A measure of progress...

A good way to measure the progress of an area is by its increase in electrical usage. During the past 12 months, the over-all consumption of our residential, commercial and industrial customers has increased 17.1 percent.

To stay well ahead of customer requirements, Mississippi Power Company plans to spend \$10.1 million for construction of electric facilities and for improvement of customer service.

Among the major projects are: a 33-mile, 115-kv transmission line from Biloxi to Pascagoula; primary substations at Ocean Springs, Pascagoula and the Standard Oil Refinery; substation and transmission facilities near Meridian; and the start of construction of a new steam-electric generating plant in Greene County, Alabama, to be owned jointly by Mississippi and Alabama Power Companies.

Other projects include more than 20 miles of high-voltage transmission line from Bay St. Louis to Poycune, a substation at Poycune, additional substation capacity at Shubuta and Poplarville; and the strengthening of distribution lines in Hattiesburg, Laurel, Meridian, Forest and Taylorville.

Building for the future is our way of making sure you'll have all the electricity you want when you want it.

Social Security

Many people in the Gulf Coast are not aware of the benefits available to them under social security. Jerome H. Drane, social security district manager in Gulfport, noted today.

Drane said, "that social security means more than just retirement benefits, that social security also provides benefits for workers and their families in case of the wage earners' disability or death," he continued. Social Security is lifetime protection against loss of income, brought out the manager.

He noted that many people are losing out on benefits to which they are entitled. He pointed out

that benefits are not automatic, and that an application must be filed with the social security office. "People who have questions about social security should get in touch with us," he said, "that's what we're here for."

Individuals are urged to call, write, or visit the Gulfport social security office at 1022 32nd Ave., telephone number UN-4-2022, to find out more about their social security protection.

ORDER

16TH SECTION LAND

There appeared before this Board **Mr. Jimmie Lee**, requesting the Board to lease unto him certain Sixteenth Section land belonging to Hancock County and situated in Section 16, Township, South Range West, and he explained to the Board that he had the home upon said property and the land was in cultivation.

It was brought to the attention of the Board that the State Land Commissioner had made preparation to have the Sixteenth Section surveyed and to classify the lands therein; however the funds were not available to the Land Office at that time.

The Board being of the opinion that it could not lease Sixteenth Section Land at this time because of its contract with the State Forest Service and that therefore this matter should be held in abeyance until such time as the survey and classification heretofore mentioned, shall have been completed in order that the Board might lease to the parties living on the Sixteenth Section land which were classified in a category that would exclude them from the contract with the State Forest Service.

The Board unanimously agreed that the request of Mr. Lee should be held in abeyance and no action taken thereon until the Board could legally, if possible, consider the application.
